

	FIGHTING INVASIVE SPECIES INSTRUCTIONS	Document number: tl.06
		Publication date: 8.2024
		Revision date / no: --

1. Purpose

The purpose of this instruction is to be aware of invasive and harmful species and to ensure that they are combated.

2. Scope

WARWICK HOTEL ANKARA covers all types of infestations that may be encountered in the areas of influence.

3. Application

WARWICK HOTEL ANKARA is aware of the invasive species and the negative effects they can have on other species and will do its part in the fight against them by cooperating with ministries, local governments, non-governmental organizations, associations and unions.

Accordingly, when the invasive/harmful species listed below are detected, the competent authorities will be informed and action will be taken in accordance with the instructions.
