

ENVIRONMENTAL POLICY

As WARWYCK OTEL ANKARA, we are aware of our responsibilities regarding the environment. Sustainable

We believe in protecting, preserving and improving our environment through management.

We reduce, minimize and safeguard our environmental impact through our ongoing commitment to:

We manage:

- To reduce our negative impact and protect our natural resources through education/training and communication.

we work.

- Sound environmental goals and targets have been established. The environmental manager should conduct a review process.

manages, measures results, and reports achievements to senior management. This is done at least annually.

- All applicable environmental laws to ensure that current legislation is implemented throughout the hotel,

legislation and regulations are complied with.

- Pollution is minimized by reducing the use of chemicals and other hazardous substances.

- Minimizing water consumption, energy consumption and waste production is one of our main goals.

- Environmental awareness of our employees, customers, suppliers and local community,

Efforts are made to inform people about our policies and encourage them to adopt them.

- Where possible and applicable, we source local products and services in accordance with our "Environmental Purchasing Policy"

we buy accordingly.

- To ensure that the negative impacts on the environment resulting from our activities are minimized,

Implements what should and should not be done in accordance with the Sustainability Practices Examples,

We evaluate application results within the scope of continuous improvement.

- Always clean, healthy, safe and sustainable for our society, future generations and ourselves.

We will try to provide an environment.
