

## PURCHASING POLICY

Price and quality standards of the products we will prefer in WARWICK HOTEL ANKARA product purchases

Unless there is a better alternative in terms of;

- When purchasing electrical devices in our business, we pay attention to the electricity usage type being class A - D.  
is being done.
- If our business uses local suppliers as a priority in its purchases,  
If there is a significant price and quality difference between suppliers and other suppliers, the others are preferred.  
It is envisaged that.
- The products to be purchased from our business are environmentally friendly and economical.  
It is necessary to pay attention to the fact that all products purchased comply with quality standards.  
attention is paid. The supplier from whom the purchase is made (at the time of the first purchase) is asked for quality, license and other necessary  
documents are requested.
- Purchases to be made to our business are concentrated, large scale, large packaged, recycled  
Products that are recyclable and produce as little waste as possible are taken into consideration.
- Our business does not use products obtained from endangered species or animals that are prohibited from being hunted.  
products cannot be purchased.
- The air conditioning devices that our business will purchase in the future will not contain harmful gases such as R22.  
will not be preferred and A, B and C class electrical appliances that use environmentally friendly gas will not be preferred.  
It is envisaged to prefer energy saving devices.
- Equipment containing R22 should be replaced by taking into account the legal replacement periods/depreciation life.  
was taken into account.
- Sustainably produced/supplied from sustainable sources, Environmentally friendly  
Sustainable, Fair Trade/Organic/FSC/MSC, etc. products are preferred for our business.
